

A. Feedback Review

- a. 4/5/2026, in real life
- b. Summary of key things:
 - i. There really was no major theme in my peer feedback. The only thing that people said was that I should add some type of highlight to the navigation bar to tell people when they are on a certain page.
 - ii. My client agreed with the navigation bar, and wanted me to add a simple highlight+underline combo.
 - iii. N/A
 - iv. My client asked me to add a bit more information to her about page, but nothing critical in terms of navigation, looks, etc.
- c. List of refinements:
 - i. Add a highlight+underline combination to whichever page the user is on
 - ii. Add a bit more information to the About Page.
